CAUTION: To prevent electrical shock, ensure electricity has been turned off at the circuit breaker before beginning.
- Read all instructions before installing.
- System is intended for installation by a licensed electrician in accordance with the National Electrical Code (NEC) and local regulations.
- When handling the fixture, do not apply pressure to the LEDs. Hold the fixture by the base only.
- Retain installation instructions for future maintenance reference.

WARNING: All parts must be used as indicated in these instructions. This product is designed for use only with the supplied parts and/or accessories designated for use by WAC. Substitution of parts or accessories not designated for use with this product by WAC could result in personal injury or property damage, and will void the warranty. Contact an authorized dealer or the manufacturer if any parts are damaged or missing.

MAINTENANCE NOTE: Coastal conditions may cause mineral and residue build-up on the fixture. We recommend that customers in coastal areas clean all external surfaces of the fixture once every two weeks with a wet cloth.

MISE EN GARDE: Pour éviter tout choc électrique, assurez-vous que le disjoncteur soit mis hors tension avant de commencer.
- Lisez toutes les instructions avant l'installation.
- Le système doit être installé par un électricien licensié conformément au code national de l'électricité (NEC), et également aux règlements locaux.
- Lors de la manipulation du luminaire, n'appuyez pas sur les LED. Tenez-le uniquement par la base.

ATTENTION: Toutes les pièces doivent être utilisées comme indiqué dans ces instructions. Ce produit est conçu pour être utilisé seulement avec les pièces et/ou accessoires fournis pour être utilisés avec les produits WAC. Remplacer des pièces ou accessoires non conçus pour ce produit WAC pourrait causer des dommages corporels ou matériels et pourrait également causer l'annulation de la garantie. Veuillez contacter un revendeur autorisé ou le fabricant si des pièces manquent ou sont endommagées.

NOTE D'ENTRETIEN: Les conditions côtières peut causer une accumulation de minéraux et de résidue sur le luminaire. Nous recommendons aux clients qui resident dans les zones côtières de nettoyer toutes les surfaces externes du luminaire une fois toutes les deux semaines avec un chiffon humide.

**PREPARATION**
1. Carefully unpack your new fixture and lay out all the parts on a clear area. Be careful not to lose any parts necessary for installation.
2. Shut off the power at the circuit breaker and remove existing fixture, including the crossbar.

MOUNTING THE FIXTURE (Fig. 1)
3. Remove the mounting screws (B) from the fixture, take down the mounting plate.
4. Secure the mounting plate to the junction box using the junction box screw(C) in the parts package.
    Note: (i) using any other non-original-manufacturer provided junction box screw may result in safety issue;
        (ii) The side of the mounting back plate marked "GND" must face out.

CONNECTING THE WIRES (Fig. 2)
5. Connect the fixture input wires to the junction box wires as shown in Fig. 2 using wire connectors (A) provided. Ensure wire connectors are secure. Connect the fixture's ground wire to the ground in the junction box; this will be either a green wire or a bare copper wire. After fixture is wired to house wires, tuck wires carefully inside the junction box.
6. The lamp can switch between five color temperatures (2700K-3000K-3500K-4000K-5000K),
     which can be adjusted to your preference with the switch in the canopy .
      Note: Fixture must be powered off to adjust the CCT setting.

COMPLETING THE INSTALLATION (Fig. 1)
7. Mount the canopy against the mounting back plate. Secure the fixture using the mounting screws (B).
8. Adjust the fixture head to the desired angle.
